1. The day at a glance

Divided The dominant story is the arrest of Mihrac Ural (Ali Kayali), with state media and much of the public celebrating while Lebanese sources dispute the circumstances of his capture. Israeli incursions into Quneitra and Daraa continue to draw outrage, and Netanyahu's claim of a call with al-Sharaa during the Suwayda crisis sparked mockery and rejection. Economic diplomacy (IMF, Gulf funding, debt talks) and security operations (captagon bust, foiled ISIS plot) dominate outlet coverage, while public discourse online is fragmented across sports, humor, diaspora debates and unrelated viral content (notably 'Damascus goats').
